An Awesome Publisher

The harmony of the world is made manifest in Form and Number, and the heart and soul and all the poetry of Natural Philosophy are embodied in the concept of mathematical beauty.

– D'Arcy Wentworth Thompson

# Preface

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

# Contents

Contents	iv
1. First Chapter	1
2. Second Chapter	4
 APPENDIX	 5
A. Some more blindtext	6
Bibliography	7

## List of Figures

1.1. This is some caption text . . . . .	2
--	---

## List of Tables

# 1. First Chapter

Things to set up:

- ▶ citations, bibliography import
- ▶ Set up snippets?
- ▶ fix setup of latexmk or change default build command to latex
- ▶ put files under VCS

Foo bar baz qux qoo. blblblbl

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language. This is an equation:

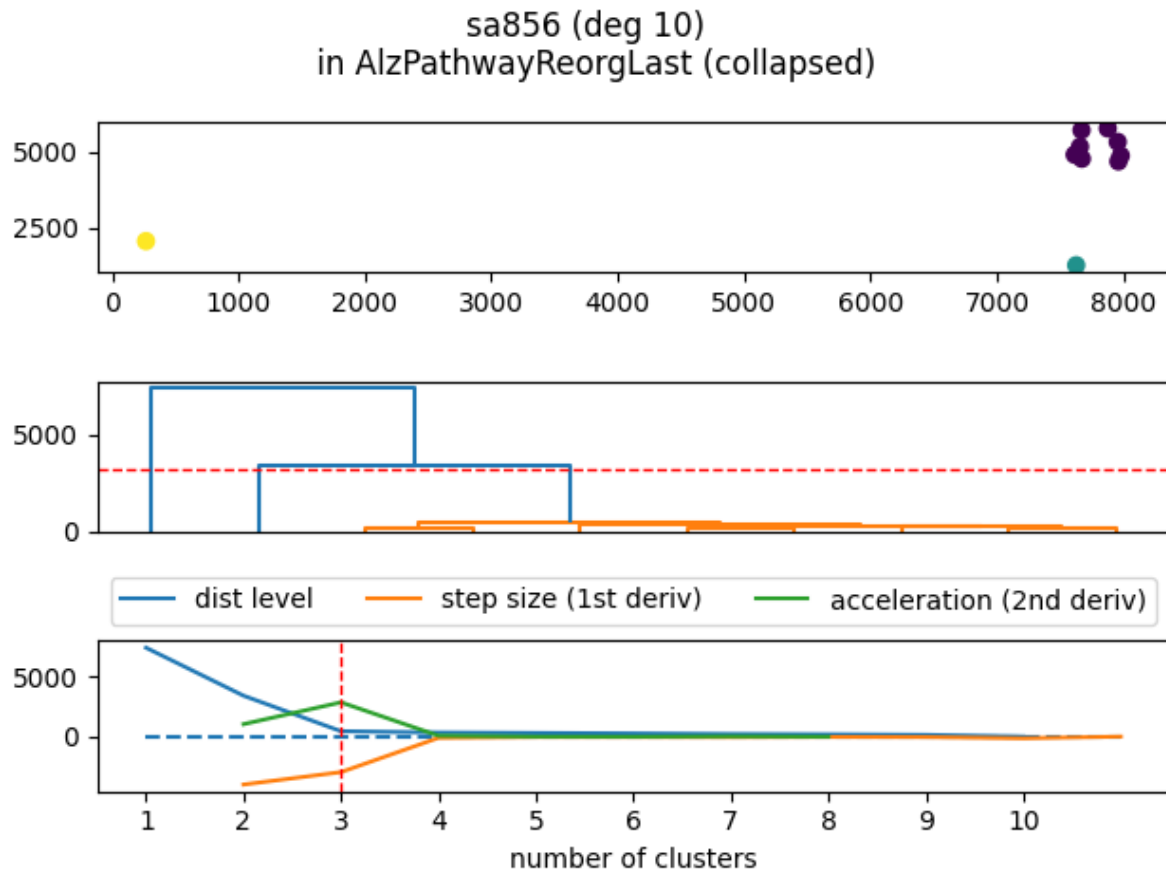

$$f(x) = \mathbf{AX} \tag{1.1}$$
